Science Project  
Shoebox Aquarium  
Due: January 24, 2011

Dear Parents and Children,

In line with learning about the ocean I would like you to do the following Science Project.

Shoe Box Aquarium:

1. get a shoe box
2. cut windows into the two short sides of the box and in the middle of the lid.
3. paint the inside and outside of both.
4. turn the shoebox on its side and tape on the lid
5. from paper cut out and color ocean creatures (things that are found in the ocean)
6. use tape and thread to hang each ocean creature inside the aquarium

Be as colorful and creative as you wish. Have fun!

Please make sure these are in on time.

Thank you

Mrs. Pat☺ Coiro
