

## **THIRD GRADE SUMMER HOMEWORK**

The attached list has books that can be ordered through Scholastic Books or found in local libraries.

The students are to read two books from the list and write a short summary of each book. Please include the name of the book, the author, how many pages, a summary, and whether the reader liked or disliked the book.

Also, students are to complete the review math facts. All incoming third graders should know their basic addition and subtraction facts.

If you have any questions regarding the summer homework, please contact me through the school website.

Have a great summer and see you in September!!!!

Miss Rhein
